## About The GLOBE Program

The GLOBE Program is an International Hands-On-Activities Science / Environmental Education Program. The Program is implemented in 127 countries and in more than 38,806 Schools throughout the world. GLOBE links students, teachers, and the scientific research community in an effort to learn more about our environment through student data collection and observation. The GLOBE Program has been striving for over and half decade to promote scientific approaches through innovative activities and the use of different techniques in the learning process that involve school students across the world.

## GLOBE Science and Environment Olympiad

Globe Science and Environment Olympiad is an initiative taken by The GLOBE Program and Indian Environmental Society whose goal is to promote global learning and observation to benefit the environment. The Olympiad is designed to encourage students to explore, discover, and learn more about our environment.

The main aim of the GLOBE Science and Environment Olympiad is to outreach The GLOBE Program to large number of Schools & Students' communities. It will help to develop a career in science for students. GSEO will help students reach higher levels of achievement in the field of Science and Environmental Science. It provides a unique opportunity to exchange experiences at National & International level.
