Invites

Call for Logo Design Contest for Rural Technology Action Group (RuTAG)

About RuTAG Initiative

Rural Technology Action Group (RuTAG) is an initiative of the Office of the PSA since 2004. RuTAG, supported by the Office of the PSA, was conceptualized as a mechanism to provide a higher level of S&T intervention and support for rural areas. Under this initiative, the interventions are designed to be primarily demand-driven, focusing on bridging technology gaps at the grassroots level, upgrading technology, and providing training and demonstrations through innovative projects.

This RuTAG initiative, driven by the Office of PSA, has achieved notable success in the development and testing of rural technologies. Its extensive outreach to NGOs, SHGs, community organizations, etc., has facilitated the effective penetration of innovative solutions into rural communities, resulting in substantial benefits. The contributions of RuTAG, especially in reducing labor, enhancing production, and uplifting rural livelihoods, have been widely embraced and accepted.

The Office of the PSA launched RuTAG 2.0 in April 2023, with a focus on commercialization and broader dissemination of developed technologies as products, ensuring wider accessibility and socio-economic impact. The RuTAG 2.0 initiative will emphasize translating innovation into market-ready products reflecting its commitment to driving transformative changes in rural areas and empowering communities for sustainable development.

These technologies cover a wide range of sectors, including agriculture, textiles, energy, livelihood, post-harvest and food processing, water conservation, animal husbandry, aquaculture, dairy, environmental conservation, healthcare, and more.
