

PROMYS India

Program in Mathematics for Young Scientists

Six Weeks of Deeply Challenging Mathematics at the Indian Institute of Science (IISc) Bangalore 11 May–21 June 2025

For Mathematically Talented Students from Across India in Standards IX-XII

Professor Ila Varma, Director

Professor Aditya Karnataki, Associate Director

Full Scholarships for All Students: including Tuition, Hostel and Meals

Join students, undergraduate counsellors, faculty, research mentors, and visiting mathematicians for a residential summer of intensive mathematical exploration.

- PROMYS India seeks to encourage mathematical habits of mind that support curiosity, creativity, collaboration and independence in facing unfamiliar mathematical challenges.
- PROMYS India is closely modelled on PROMYS, its 36-year-old parent programme at Boston University in the U.S.
- Daily Number Theory lectures, advanced seminars, exploration labs, and mentored research plus guest lectures and talks on a wide range of mathematical topics.

Application and application problem set: www.promys-india.org

Apply by 15 January, 2025

"PROMYS India is a wonderful community where you get to live, breathe and eat mathematics!!!" Nimeesha Guntupalli (PROMYS India 2024)

"I couldn't believe the rich mathematical environment built here at PROMYS India, where people from all over the nation share their experiences through beautiful problem sets and labs." Devansh Kumar Tripathi (PROMYS India 2024)
