

SOMAIYA SUMMER AND WINTER SCHOOL PROGRAMME

*Discover your Incredible Future with
Somaiya Vidyavihar University*

Wondrous Summer & Winter School Programme

Develop new skills and sharpen academic knowledge with The Somaiya Summer & Winter School Programme. Be a part of Somaiya's 8 decades legacy, embracing ethos, values, and interdisciplinary pedagogy. The main goal of the programme is to introduce students to university life, discover various career paths, explore academic disciplines, and get hands-on experiences. The thoughtfully curated programme, specifically tailored for students in grades 9 through 12, includes academic sessions, workshops on college readiness, and social gatherings. Participants can explore different fields of study, attend career talks, and engage in activities that suit their interests. The aim of this programme is to prepare students for higher education and empower them to make informed academic choices.

The six-day Summer School Programme, held on a lush green campus, gives students the knowledge and abilities they need to contribute significantly to the subject of their choice through fun and experiential group activities. Each course features live sessions, workshops, discussions, tutorials, and self-paced learning materials, fostering interaction with faculty and peers.

Be a part of Somaiya's eight-decade legacy, embracing ethos, values, and interdisciplinary pedagogy. Open to students nationwide, Somaiya School promises a diverse classroom experience with dedicated, industry-experienced faculty. Experience a holistic educational journey with us.

Explore Freedom of Possibilities with Somaiya Vidyavihar University

Somaiya Vidyavihar University, with over eight decades of rich experience in managing educational institutions and imparting quality education, offers numerous opportunities and multidisciplinary programmes to students worldwide. Industrial Visit

The industrial visit in the Somaiya Summer & Winter School Programme connects academic learning with real-world applications by exposing students to industries like manufacturing, technology, healthcare, and finance. Participants observe workflows, advanced technologies, and professional environments while interacting with industry experts to learn about careers and innovation. Guided tours and hands-on experiences link theory to practice, enhancing understanding. The visit fosters curiosity, critical thinking, and active engagement through discussions and group activities. Reflection sessions help students align their experiences with academic and career goals. This enriching initiative prepares them for future success through holistic and experiential learning.

Testimonials

The students were delighted to participate in the Somaiya Summer & Winter School Programme as it granted them their first exposure to university life, providing a unique blend of independence and responsibility.

“The Winter School Programme boosted my learning with unique opportunities and exposure to university-based curriculum, sports, and industry visits. It sparked creativity and helped me gain skills, friendships, and memories. Excited for next year!”

- Meet Modi

“Attending the Winter School Programme was one of the best decisions I've made. I was able to dive deep into subjects I'm passionate about and explore new areas of interest. The classes were hands-on and interactive, and I loved how the programme emphasised both learning and creativity. I left the programme feeling more motivated and excited for the future!”

- Vivaan Lalwani

“The Winter School Programme was exceptional! I enjoyed different sessions, gained knowledge quickly. Supportive instructors, enriching extracurricular activities, hands-on projects, and teamwork exercises enhanced our abilities. Grateful for the experience, looking forward to next year.”

- Yash Chugh

- Enhance Your Personality.
- Achieve University Certificate on Successful Course Completion.
- Networking with Peers from different Schools.
- Alumni Status.

Somaiya Winter School Programme: November & December 2025

The Somaiya Summer and Winter School program offered a diverse range of courses across various disciplines, including Science, Engineering, Commerce and Business Studies, Humanities and Social Science, Design and Incubation, Music and Performing Arts, and Sports. These programs were thoughtfully designed to provide students with an enriching academic experience, encouraging both personal and professional growth. The following are experiences that highlight the breadth of opportunities offered during these dynamic sessions.

Humanities and Social Sciences Studies

The Arts and Humanities Studies programmes at Somaiya Vidyavihar University's Somaiya Summer & Winter School Programme provide students with an immersive learning experience. It promotes critical thinking by integrating insights from diverse fields like literature and psychology, history and sociology, philosophy, education, and economics. Further, explore career opportunities in sectors like finance, research, consulting, and international organisations. Additionally, explore psychology for insights into therapeutic techniques and career paths in counselling, mental health, education, and research. Navigate socio-political contexts to expand career options in a dynamic job market. The exposure to archiving, museology, and digital humanities offers insights into the preservation, curation, and utilisation of cultural heritage in the digital age. Specialise in areas like archaeology, archival studies, historic preservation, heritage management, and historical writing. For those interested in education, gain insights into teaching, educational administration, curriculum development, policy, and research.

Engineering

Explore modern technology from programming to secure app development in the Summer & Winter School programmes. Ideal for aspiring tech experts, the sessions cover Robotics, AI, HTML, CSS, JavaScript, Python, Adobe Photoshop, Illustrator, Cybersecurity, and Microsoft Office Suite skills. The Design course offers a tech-driven experience in digital, interactive, and tangible interfaces, preparing you for a promising career in design. Learn immersive storytelling, service design, and more to transform your design skills for impactful solutions.

Science

Science, the heart of the modern world, involves the systematic study of the world through experiments, observation, data collection, analysis, and conclusions. The main branches include Biology, Chemistry, Earth Science, and Physics. Science fuels technological advancements, medical breakthroughs, and environmental understanding. Learning science cultivates critical thinking and informed decision-making. The Somaiya Summer & Winter School Programme in science combines classroom lessons and lab experiments across various science branches.

Commerce & Business Studies

The Commerce & Business Studies programmes at the Somaiya Summer & Winter School Programme aim to provide a window into the world of finance and enrich learning and overall student development. The curriculum exposes critical challenges, ideas, innovations, and purpose-driven management solutions. Students explore Digital Marketing, Business Analytics, Data Science & Technology, Brand Management, Stock Market Analysis, Computer Applications, Trading Strategies, Logistics & Supply Chain Management, Project Management, and Data Analytics. The programme enhances life skills, offering university-level sessions and interactions with accomplished professionals to enrich student portfolios.

Design and Incubation

Design and Incubation Somaiya Summer & Winter School Programme courses prepare the students for a promising career in design which is a humane and technology-driven experience including digital, interactive and tangible interfaces. Working collaboratively, one can transform the designing skills to create simple, unique and impactful solutions by learning different forms of immersive storytelling, service design, and more.

Sports & Exercise Science

Sports and Exercise Science Somaiya Summer & Winter School Programme at Somaiya Vidyavihar University allow one to find their true athletic potential and pursue expertise in a particular field of sports properly. It includes focusing on the field of physical and health education as well as various sports and their relation. The objective is to provide students interested in sports an option to study and sharpen their craft. There will be sessions on various aspects of sports.

Music & Performing Arts

Music is an integral and important segment of the Culture of any society. The Somaiya Summer & Winter School Programme allows students to experience the balance of Guru-Shishya parampara and modern teaching methods critical to students' overall development. It's an amazing opportunity to understand the intricacies of music in all aspects and get exposure to music performances with self-performing experience.

About Summer & Winter School Initiative

The Somaiya Summer & Winter School Programme at Somaiya Vidyavihar University is a pioneering initiative that provides students with a holistic understanding of various courses in Arts & Humanities, Sciences, Design & Incubation, Engineering, Commerce & Business Studies and Music & Performing Arts. This programme offers an immersive university experience on campus, allowing students to interact with experienced faculty members and peers through structured co-curricular activities, college readiness workshops, and social events.

Eligibility Criteria

Students currently in the 9th, 10th, 11th or 12th grade in HSC, SSC, ICSE, CBSE, IBDP or a similar Board with an anticipated graduation year of 2025 are invited to participate in the programme. To apply, candidates are required to complete and submit the online application form.
